

## What Is at Stake?

1. **Leaving a Mess:** Are you going to leave your family with financial burdens and emotional stress because you didn't plan for your incapacity or death?
2. **Abandoning your choices:** The government has an estate plan *for you* if you don't plan. Without your own plan, you won't transfer your assets to *whom* you want, *when* you want and *how* you want.
3. **Probate Court:** Without planning, your family will end up with the hassle, delay, and expense of the public process of probate court at your death.
4. **Conservator Court:** Without planning, your family will end up with the hassle, delay, and expense of the public process of conservator court upon your incapacity.
5. **Court Control of Inheritance:** If you don't plan, the court will choose the person to manage a minor child's or disabled person's inheritance.
6. **Incapacity:** If you don't plan, the court will choose the person to handle your money and assets if you become mentally incapacitated.
7. **Lack of Direction:** Who is going to make medical decisions when you can't? How will that person know what you want?
8. **Family Conflict:** Lack of planning increases the chance of conflict between your loved ones.
9. **Creditor Claims:** With lack of planning, creditors may seize the inherited assets.

**All of these problems will cost stress, delay and money!**

**Nobody wants to leave their family with financial burdens and avoidable emotional stress. We help you circumvent these and other problems by creating the best estate plan for you. The government has a plan for you if you don't plan ahead.**
